8 Charges

8.1 The charges levied by Business Stream, and the basis on which Business Stream works out the charges for the Services, are set out in the Charging Statement, as supplemented by the Water and Waste Water Supply Contract.

8.2 Unless otherwise agreed with the Customer, Business Stream shall be entitled to change the charges for the Services from time to time. Business Stream shall change the charges for the Services by publishing a new Charging Statement, in advance of the changes taking effect, on its website at www.business-stream.co.uk. The changes to the charges for the Services shall take effect from the effective date stated in the new Charging Statement.

8.3 Business Stream may recover from the Customer its reasonable costs and losses including

lost charges (subject to any default maximum tariffs which may apply under the Market Regulations) which relate to any breach by the Customer of the Contract, including costs and losses in connection with or resulting from:

8.3.1 recovering unpaid charges;

8.3.2 any change to payment methods, if the Customer has agreed to pay the charges for the Services by direct debit;

8.3.4 correcting the unauthorised removal of, obstruction of, damage to, tampering with or the fitting of devices to a meter or metering equipment;

8.3.5 charges levied by the Wholesaler against Business Stream due to the breach of a Law by the Customer;

8.3.6 a leak in the supply to the Property (irrespective of whether such leak occurs inside or outside the Property) unless and until a leak allowance is granted by the Wholesaler (in its sole and unfettered discretion).

8.4 Business Stream may recover from the Customer any charges levied on Business Stream by the Wholesaler in relation to the Customer including any relating to the disorderly exit of the Customer, irrespective of whether (i) Business Stream delivered the relevant services and/or supplies to that Customer which are the subject of the charges and (ii) Business Stream was the water retailer for the Customer at the time the charges were incurred.

8.5 All charges will have applicable taxes or duties charged on them, including VAT at the current rate.

8.6 For the recovery of lost charges due to Customer breach in relation to metering equipment, Business Stream will be permitted to assess the amount of charges lost during the period of damage by referring to the most recent average daily use at the Supply Point before the meter stopped recording usage accurately.

8.7 If a leak allowance is granted by the Wholesaler, Business Stream shall refund to the Customer those charges paid by the Customer to Business Stream which have been paid or are payable by the Wholesaler to Business Stream as part of the leak allowance payment.

8.8 Business Stream accepts no liability to the Customer for the Customer's failure to secure any payment exemptions for which the Customer is eligible, and the award of any such payment exemptions to the Customer shall have no retrospective effect on charges paid or payable by the Customer

to Business Stream.

9 Payment

9.1 The Customer shall pay Business Stream the charges for the Services in accordance with the Charging Statement and the Water and

Waste Water Supply Contract (as applicable), and any other amounts properly due in connection with the Contract.

9.2 Business Stream may issue a bill or adjust any bill already issued:

9.2.1 if there is a reassessment of the rateable value of a Property resulting from any change of use, extension or addition to that Property, which change impacts on the charges for the Services; or

9.2.2 if the Customer owns, leases or otherwise uses a Property for which the Customer has not paid charges for Services supplied to that Property; or

9.2.3 if information relating to the Trade Effluent consent is retrospectively applied as set out in the Charging Statement,

in which case the bill may be backdated to the date of any reassessment of rateable value, to the date on which the Customer first occupied the Property (as applicable) or to such date as mandated by the Charges Scheme applicable to the relevant Wholesaler.

9.3 Each bill issued by Business Stream shall contain the Minimum Information Requirements.

9.4 Business Stream shall issue each bill to the Customer either in the post or electronically, which shall constitute receipt by the Customer. The Customer shall pay each bill in accordance with the payment terms set out in the relevant bill and/or the Water and Waste Water Supply Contract (if applicable). If the Customer disputes part of a bill, the Customer shall pay the undisputed amount.

9.5 If the Customer disputes all or part of a bill based on whether particular Services referred to in the bill are being provided in whole or in part, Business Stream will instruct the Wholesaler to verify whether such disputed Services are or are not being provided. If the Services are verified as being provided then Business Stream may recover from the Customer the verification costs which it has to pay the Wholesaler.

9.6 Business Stream can charge interest at the rate of 4% a year above the Bank of England base rate for the period from the date 10 days after the date until payment.

9.7 If the Customer has agreed to pay the charges for the Services by direct debit, Business Stream may change, without notice to the Customer and with immediate effect by notice to the Customer's bank, the amount payable by a Customer to reflect its entire liability to Business Stream pursuant to the Contract. The failure of any payment due under the Contract by direct debit (for any reason) shall not affect the Customer's liability to make that payment through other means.

9.8 If a Customer makes a payment which is not sufficient to cover all charges due, the payment will be used in the following order:

9.8.1 against water or waste water charges which have been unpaid for 90 days or more (taking the oldest debt first);

9.8.2 split equally against water and waste water charges (to the extent such are unpaid) until the charges for one are fully paid; and

9.8.3 if there is any amount left over, used to pay any other outstanding charges.

10 Refundable deposit

10.1 At any time, Business Stream may request the payment of a refundable deposit by the Customer for such amount as determined by Business Stream, acting reasonably.

10.2 A request for a refundable deposit shall be accompanied by a statement from Business Stream as to why the refundable deposit has been requested and the purpose for which it will held and used and any such other relevant information as determined by Business Stream from time to time.

10.3 When requested the amount of the refundable deposit shall be immediately payable by the Customer to Business Stream.

10.4 Business Stream may use the refundable deposit to pay any charges or other amounts due by the Customer pursuant to the Contract, but otherwise shall hold use and repay the refundable deposit in accordance with the statement provided.

11 Meters

11.1 The Customer authorises Business Stream to make the metering arrangements determined by Business Stream, acting reasonably, to be necessary in connection with the Services, including installing, maintaining, testing, repairing, replacing, removing, disconnecting and reconnecting meters and metering equipment at the Property.

11.2 The Customer shall, at its own cost, procure the approval of any third party needed to allow Business Stream to make any arrangements in accordance with Condition 11.1, and shall provide evidence of such approval to Business Stream on request.

11.3 Unless agreed otherwise in writing, ownership of the meter and metering equipment will not be transferred to the Customer and will remain the property of the Wholesaler or Business Stream or any other person providing it.

11.4 The Customer shall not remove the meter or the metering equipment and must take reason-

able care to keep the meter and metering equipment free from obstruction or damage (including damage by frost) and interference.

11.5 A Customer may fit any device to a meter or metering equipment, including a Data Logger, provided it has the prior written approval of Business Stream (and for the avoidance of doubt, no fitting shall be

approved unless undertaken by an accredited fitter)..

11.6 An authorisation granted to Business Stream may be exercised by it and/or by the Wholesaler, and include access for the employees, contractors or representatives of Business Stream and the Wholesaler.

12 Access

12.1 At all reasonable times, the Customer must allow Business Stream safe and unobstructed access (by vehicle in appropriate cases) to the Property, including access to the meter, metering equipment and associated pipework to:

12.1.1 do anything in connection with a meter, metering equipment and associated pipework, including reading, inspecting, testing, repairing, exchanging, installing, disconnecting, removing or reconnecting a meter, metering equipment or associated pipework;

12.1.2 disconnect the supply;

12.1.3 disconnect the supply of another customer with whom the Customer shares that supply;

12.1.4 disconnect and/or uplift (as appropriate) the meter or other equipment owned by Business Stream and/or the Wholesaler (if the Services are terminated);

12.1.5 inspect or test a meter or connection not owned or provided by or for Business Stream and/or the Wholesaler;

12.1.6 allow Business Stream to adhere to the Market Regulations;

12.1.7 sample water quality; or

12.1.8 sample or monitor trade effluent.

12.2 Business Stream shall have access for the purposes described in Condition 12.1 at any time if:

12.2.1 there is danger to life, health or property in connection with the supply; or

12.2.2 access is needed/allowed by law.

12.3 The access rights granted to Business Stream may be exercised by it and/or by the Wholesaler, and include access for the employees, contractors or representatives of Business Stream and the Wholesaler.

12.4 If the access required by the Contract is denied by the Customer, Business Stream may seek a court order to allow access (or may instruct the Wholesaler so to do) and Business Stream may recover from the

Customer all reasonable costs associated with applying for and obtaining such court order, whether such costs are those which Business Stream is liable to pay the Wholesaler or otherwise.

13 Disconnections and reconnections

13.1 Business Stream may temporarily disconnect a supply of water services and/or waste water services to a Property, in accordance with the Disconnections Document, if:

13.4.2 the Customer requests such permanent disconnection; or

13.4.3 the Customer has been disconnected on a temporary basis (whether water or waste water services) for three months or more.

13.5 The Customer shall indemnify Business Stream for any costs incurred by Business Stream in undertaking a permanent disconnection at a Customer's Property.

13.6 If Business Stream disconnects a supply of Services to a Property on a temporary basis, and the Customer requests reconnection and has paid in advance to Business Stream the appropriate reconnection fee, then Business Stream will reconnect:

13.6.1 where the temporary disconnection was due to non-pay-

ment, denying access to a water meter or failure to provide a refundable deposit, the breach has been remedied; or

13.6.2 If the temporary disconnection was because the Customer did not adhere to Law or any consent needed for trade effluent, Business Stream receives confirmation from the Wholesaler that the breach has been remedied.

13.7 If Business Stream permanently disconnects a Property the Customer will need to apply for a new connection if it wants reconnection, and Business Stream will not re-connect pursuant to this Contract.

13.8 If following a temporary disconnection the Customer without appropriate authority procures or allows a physical reconnection to be carried out then the Customer shall be liable for the charges for all of the Services used following that connection.

13.9 From 8 April 2020, no amounts owed by the Covid-19 Affected Customer to us are "due" or shall be treated as "due" by us for the purposes of a disconnection notice under section 61(1ZC)(b) of the 1991 Act, and for these purposes only. All other rights and obligations under these Terms and Conditions of Supply are unaffected by this clause 13.9.

15.3 If following the settlement of all amounts due to Business Stream there remains any part of a refundable deposit held pursuant to Condition 10, such amount shall be repaid to the Customer.

15.4 If the Contract terminates in relation to part of the Services, the Contract shall continue to apply in respect of those parts of the Services which are not terminated.

15.5 If a notice of termination of the Contract (in whole or part) is served by the Customer, Business Stream may ask the Customer to provide a final meter reading, further to which the Customer shall provide such final meter reading.

15.6 If the Customer does not provide an accurate final meter reading in accordance with Condition 15.5, the Customer may be liable for the difference between the meter reading upon which the final bill was based, or the final estimated bill, and the next meter reading.
